About company

We Ecowide Group is the leading distributor of eco-friendly waterless car wash, car care and other chemical products under the brand name Green Bottle in GCC countries and India. Our company offers a wide range of products including vehicle body wash, interior wash, engine degreaser, carpet cleaner and conditioner, marine cleaning concentrate, microfiber cloths, and more. Our high-performance, water-based products are safe, eco-friendly, biodegradable, and designed to conserve natural resources, especially water.

Green Bottle

**"From Monday mess to Friday
flex. That's our kind of glow-up."**

Why ‘Green Bottle’s’ Waterless Carwash

Green Bottle’s Waterless Car Wash is an innovative and eco-friendly solution designed to clean, shine, and protect vehicles without the need for water. Its advanced formula lifts dirt and dust safely from the vehicle's surface while leaving a protective, glossy finish..

Mission

"Committed to a cleaner car and a greener earth. We leverage advanced, eco-conscious washing systems to deliver a spotless clean that actively protects our local waterways."

Vision

"To make eco-friendly car washing the universal standard."

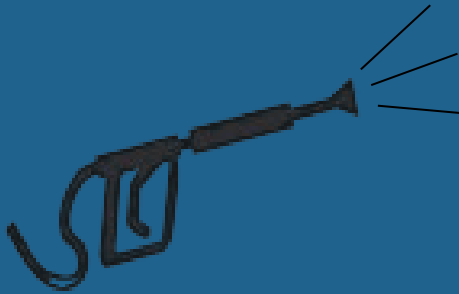

Our Services

At Green Bottle, we provide innovative and eco-friendly vehicle care solutions designed to deliver exceptional cleaning results while conserving water. Our services include waterless car wash solutions, interior and exterior cleaning solutions, engine degreasers, carpet and upholstery care, marine cleaning products, and professional car care supplies. We also support businesses, dealerships, fleet operators, and entrepreneurs with high-quality, sustainable car care products that enhance efficiency.

Automatic Car Wash

Consumes More Than 100 Litres Of Water

Manual Car Wash Takes More Than 50 Litres Of Water

Our waterless car wash solution Consumes

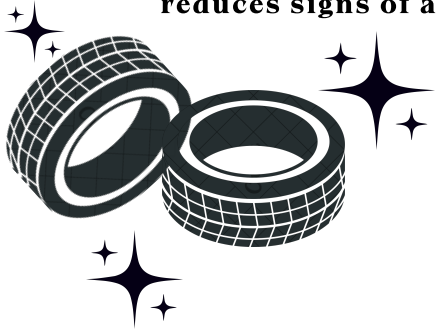

Less Than
250 ml
Of Water

How many cars can you wash with 1.5 Litres of water?

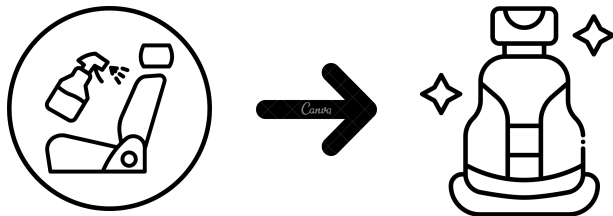

Tyre Shining & Blackening

CARIKER Tyre Shining & Blackening is a concentrated formula that cleans, restores, and protects tyres while delivering a deep black finish. Enriched with premium silicone emulsions, it enhances appearance, reduces signs of ageing.

Leather Cleaner Concentrate

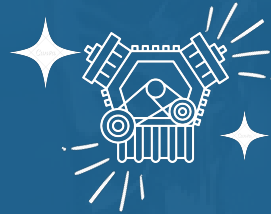

CARIKER Leather Cleaner Concentrate gently cleans natural and synthetic leather surfaces without affecting texture or colour. It removes dirt, body oils, and everyday contaminants while helping maintain softness, flexibility, and appearance.

Our Products

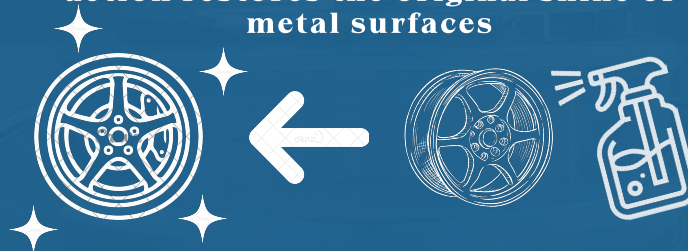

Engine Cleaner Concentrate

CARIKER Engine Cleaner Concentrate effectively removes oil, grease, dirt, and built-up deposits from engines and surrounding components. Its low-foaming formula penetrates tough contaminants quickly, making engine maintenance easier while improving cleanliness.

Rim Cleaner Concentrate

CARIKER Rim Cleaner Concentrate is specially formulated to remove brake dust, grease, road grime, and stubborn contaminants from wheel rims. Its powerful yet safe cleaning action restores the original shine of metal surfaces.

Hyper Polish

CARIKER Hyper Polish is a versatile polishing solution designed for interior and exterior surfaces. It restores gloss, enhances colour, and leaves a protective finish on trim, vinyl, plastics, rubber, and other surfaces.

All-Purpose Polish

CARIKER All-Purpose Polish cleans, shines, and protects multiple interior surfaces with a single application. Its anti-static formula helps repel dust while restoring a fresh appearance to vinyl, plastic, and leather surfaces.

Multi Surface Cleaner

CARIKER Multi Surface Cleaner is a concentrated cleaning solution developed for heavy-duty cleaning tasks. It effectively removes dirt, oils, stains, and organic contaminants from plastic, leather, wood, laminate, and textile surfaces while preserving surface quality and maintaining long-term colour and appearance.
